2022 – Present	Visiting Assistant Professor Psychology University of North Florida, Jacksonville, Florida
2017 – 2022	Doctor of Philosophy Aging Sciences University of South Florida, Tampa, Florida
2014 – 2016	Bachelor of Science Psychology University of North Florida, Jacksonville, Florida Honors in the Major

RESEARCH

Methodological Skills

- Certified SQL Data Analyst (DataCamp Career Track)
- Certified in Microsoft SQL Server (LinkedIn Learning)
- Strong ability to conduct advanced statistical analyses such as Multilevel Modeling, Structural Equation Modeling, Linear Regression, Logistic Regression, Moderation, Mediation, and Generalized Linear Mixed Modeling
- Extensive experience in SAS and R
- Experience with secondary datasets such as the Midlife in the United States (MIDUS) and the Work, Family, and Health Study
- Mastery in survey development software such as Qualtrics and LifeData

Research & Professional Experience

Visiting Professor, **Department of Psychology** *August 2022 – Present*
University of North Florida, Jacksonville, FL

- Piloted a new curriculum for teaching Research Methods in Psychology
- Redesigned Introduction to Psychology for the university to allow \$0 cost to students, increasing equitable access to education
- Mentored and trained over 500 undergraduate students in research methodology and statistics

Manager, **Sleep, Stress, & Health (STEALTH) Lab** *January 2019 – January 2022*
University of South Florida, Tampa, FL
Principal Investigator: Soomi Lee, Ph.D.

- Built the lab from the ground up, establishing standard operating procedures, hiring research assistants, and ensuring smooth day-to-day productivity

- Cultivated a family-like, collaborative environment, allowing every member to contribute their personal strengths to form a cohesive and productive unit
- Trained, oversaw, and mentored 20+ undergraduate in coordinating data collection, analyzing data, writing manuscripts, developing conference presentations, presenting findings to the general public, maintaining professionalism, and establishing a career path
- Planned and orchestrated successful participant recruitment and data collection for more than 180 oncology nurses and direct-care workers for a multi-site, three-part study on sleep health and work performance (including ecological momentary assessments and actigraphy)
- Transformed a complex, three-part study protocol to fully-remote during the COVID-19 pandemic through problem solving and time management skills
- Cleaned and managed data for intensive repeated measures (up to 4 times per day) data and regularly conducted complex statistical analyses such as multilevel modeling and generalized linear mixed models
- Learned, taught, and participated in scoring sleep actigraphy data, demonstrating an ability to learn new technologies, software, and coding techniques

Research Trainee, **Health Outcomes and Behavior Program**

January 2018 – Present

Moffitt Cancer Center, Tampa, FL

Supervisors: Heather Jim, Ph.D., Brent Small, Ph.D., Laura Oswald, Ph.D., & Brian Gonzalez, Ph.D.

- Supported the development of an IRB proposal for a project on cognition in adolescents and young adults with cancer
- Attended weekly meetings and contributed to critiquing conference presentations, results sections, grants, and other miscellaneous work
- Collaborated with various Moffitt researchers and scholars from other institutions on projects that focus on quality of life issues in adolescent and young adults with cancer as well as head and neck cancer patients
- Co-organizer of “Staying Connected” initiative, a virtual network of research-related and non-research-related interest groups, during the COVID-19 pandemic
 - Introduction to Coding Interest Group – presenter
 - Survivorship and Quality of Life in Cancer Interest Group – leader and presenter
- Participated in regular trainings related to responsible conduct of research and professional development
 - The Scientist as a Responsible Member of Society – Susan Vadaparampil, Ph.D.
 - Removing the Power of your Bias – Desirée Chachula, Ph.D.
 - Human Subjects in Research - Georgomaly Estronza, M.S., C.I.P.
 - Patient Researcher Forum – Presentation from Three Metastatic Breast Cancer Patients Sharing their Cancer Journey to Inspire Research
 - Elevator Pitch Workshop

Lab Coordinator, **Functional Near-Infrared Spectroscopy (fNIRS) Lab** July 2016
(Origination) – May 2017

University of North Florida, Jacksonville, FL

Supervisor: Katherine Hooper, Ph.D.

- Trained myself and others how to use fNIRS equipment and potential research applications
- Managed all administrative duties including scheduling, website management, etc.
- Completed and submitted an IRB proposal for a project on the valence hypothesis
- Conducted literature reviews on fNIRS and valence hypothesis
- Mentored lab members on the development of research posters and presentations

Research Assistant, **Person by Situation Research Team**

January 2015 – May 2017

University of North Florida, Jacksonville, FL

Supervisor: Christopher Leone, Ph.D.

- Facilitated data collection for eighty participants, cleaned raw data, and wrote a method section for a MA student's thesis
- Developed my own study and successfully wrote my undergraduate honors thesis based on my findings
- Conducted literature reviews on and psychometric evaluations for measures of self-monitoring, attachment style, romantic jealousy, and sociosexual orientation
- Peer-reviewed posters, presentation abstracts, and manuscripts and trained lab members on effective conference networking
- Gained proficiency in an online participant pool system (SONA)
